

Breakout Group 1

Motion 24 para 4b, Beijing Outcome para 1

What are the next steps to:

- a) Strengthen international collaboration on the protection and wise use of the Yellow Sea's intertidal wetlands and associated habitats by integrating their conservation into existing international cooperative frameworks.
- b) Initiate the development of a joint, multi-sectoral **transboundary cooperation mechanism** to enhance the conservation and coordinated management of the intertidal wetlands and associated habitats of the Yellow Sea.

Breakout Group 2

How can we progress a potential global agenda on coastal wetland conservation?

- a) Caring for Coasts – promoting coastal wetland restoration (*Motion 24 para 4c*)
- b) Working Coastal Wetlands – developing guidance on management of shellfisheries, aquaculture and saltpans for migratory birds (*Motion 24 para 1*)
- c) Draft Resolution on Tidal Flats for Ramsar COP13 (*Motion 24 para 2*)
