**Q1**

Name of Reporting Group

Directorate of Biodiversity Conservation of Species and Genetic, Ministry of Environment and Forestry, Republic of Indonesia

**Q2****National Governments (Govt)**

Reporting Group

**Q3**

Designated EAAFP Focal Point

Name and title

**Deputy Director of Species and Genetic Preservation**

P.O. Box/Street address

**Manggala Wanabakti Building, Block VII, 7th Floor, Jl. Gatot Subroto, Greater Jakarta**

Postal code

**10270**

E-mail address

**pengawetaninsitu@gmail.com; ditkkh@gmail.com; badiahsaid@gmail.com****Q4**

Additional Designated EAAFP Focal Point (Optional)

Name and title

**Yarman**

Affiliation

**Site Manager of Wasur National Park**

P.O. Box/Street address

**Merauke**

E-mail address

**yarman73@yahoo.co.id**

Telephone

**+62811488672**

**Q5**

## Additional Designated EAAFP Focal Point (Optional)

Name and title	<b>Afan Absori</b>
Affiliation	<b>Berbak-Sembilang NP (Site Manager Representative)</b>
P.O. Box/Street address	<b>Jambi</b>
E-mail address	<b>afanabsori@gmail.com</b>
Telephone	<b>+6282272238339</b>

---

**Q6**

## Report compiler

Name and title	<b>Drajat Dwi Hartono</b>
Affiliation	<b>Conservation Area Analyst</b>
P.O. Box/Street address	<b>Manggala Wanabakti Building, Block VII, 7th Floor, Jl. Gatot Subroto, Greater Jakarta</b>
Postal code	<b>10270</b>
E-mail address	<b>drajatdh@gmail.com</b>
Telephone	<b>+6285647027845</b>

## Page 3: Reporting on the implementation of the EAAFP Strategic Plan 2018 - 2022

**Q7**

RQ1. (Govt) Do you have a publicly accessible list of internationally important sites for migratory waterbirds in your country? If yes, please provide the web link or the reference in the below box. If not, would you like assistance from other Partners to develop such a list (please let us know your opinion in the box right below)?

**Yes,**

Additional information:

Publications related to important sites for migratory birds are published on the Ministry of Environment and Forestry's website, the technical implementation unit's website and partners. In addition, there are also social media accounts specifically targeting the younger generation with information about migratory bird activities and their habitats  
 Website: <http://ksdae.menlhk.go.id/>;  
<https://www.facebook.com/groups/101621147491/>  
 Instagram: Govt: @indonesianwildlife;  
 @btn\_berbaksembilang; btn\_wasur Partners:  
 @awcindonesia; @burunglautindonesia

---

**Q8**

RQ2. (Govt) Have any additional internationally important sites for migratory waterbirds been identified in your country (for background, see EAA Flyway Network Sites Overview Report 2013)? If yes, please provide details on these sites.

**Yes,**

Additional information::

Referring to the report in 2020 (ASEAN FLYWAY NETWORK WATERBIRD CENSUS AND WETLAND ASSESSMENTS: National Report - INDONESIA), several locations have been confirmed as internationally important sites for migratory waterbirds: • Bagan Percut, North Sumatera • Cemara Beach, Jambi • Ulee Matang, North Aceh, Aceh Province Other sites: Eastern Coast of Aceh Province and North Sumatra Province, i.e Ulee Matang fishpond in North Aceh Coastline; Deli Serdang and Batubara intertidal mudflat in North Sumatra Coastline Dogamit & Ndalir Beach - Tomer, Papua

**Q9**

RQ3. (Non-Government Partners) Have you documented any additional internationally important sites for migratory waterbirds in the EAAF (see EAA Flyway Network Sites Overview Report 2013)? If yes, please provide details on these sites.

**Yes,**

Additional information::

Documented through the annual Asian Waterbird Census activities conducted between January-February, as well as by the Technical Implementation Unit of the Ministry of Environment and Forestry (BKSDA & National Park) in important areas outside conservation areas through Inventory and Verification of High Biodiversity Value Areas.

**Q10**

RQ4. (Govt) Have high priority candidate sites been identified for potential nomination to join the Flyway Site Network? If yes, please provide details on these sites. If not, would you like assistance from other Partners?

**Yes,**

Additional information::

Several locations have been confirmed as internationally important sites for migratory waterbirds: • Bagan Percut, North Sumatera • Cemara Beach, Jambi • Ulee Matang, North Aceh, Aceh Province

**Q11**

RQ5. (Govt) Have any additional sites been nominated for the Flyway Site Network since MoP10 (December 2018)? If yes or planned, please provide the names of these sites.

**Planned,**

Additional information::

Several locations have been confirmed as internationally important sites for migratory waterbirds: • Cemara Beach, Jambi • Bagan Percut, North Sumatera • Ulee Matang, North Aceh, Aceh Province

**Q12**

RQ6. (INGO, Corporate) Have you supported Government Partners with their identification of high priority candidate sites for the potential nomination of the new Flyway Site Network? If yes, please provide details of your support and the associated sites.

**Respondent skipped this question**

**Q13**

RQ7. (Govt) How many additional Flyway Network Sites do you anticipate there will be in your country by 2025?

The number of expected new FNS

**3**

Additional information:

**Referring to the report in 2020 (ASEAN FLYWAY NETWORK WATERBIRD CENSUS AND WETLAND ASSESSMENTS: National Report - INDONESIA), several locations have been confirmed as internationally important sites for migratory waterbirds: • Cemara Beach, Jambi • Bagan Percut, North Sumatera • Ulee Matang, North Aceh, Aceh Province**

---

Page 5

**Q14**

RQ8. (Govt) Which Flyway Network Sites (FNS) in your country have a Management Plan and when is it due to be updated?

Berbak Sembilang NP and Wasur NP has a Long-Term Development Plan. This plan serves as a reference in implementing conservation programs, including activities aimed at conserving migratory waterbirds.

---

**Q15**

RQ9. (Govt, INGO, IGO) Please provide examples of how the “Flyway Site Network” brand is being recognized.

The conservation of migratory waterbirds and their habitats in FNS is promoted through research conducted by fellow lecturers and students, community outreach around the sites, and regular monitoring.

The FNS Wasur NP slogan: “Local wisdom to support the preservation of migratory birds and their habitat”

---

**Q16**

RQ10. (Govt, INGO, IGO) Have any public consultation processes been implemented when a site of international importance for migratory waterbirds could be adversely impacted by a proposed development? If yes, please provide brief details on the site/s and if the development was approved.

**Yes,**

Additional information::

Currently, there are no development plans that have the potential to adversely impact the site. The action plan development process was consulted openly involving various stakeholders (central government, local government, private sector, community, academia, NGOs, etc.). In the public consultation process, potential development that could disturb migratory birds and their habitats was avoided.

---

**Q17**

RQ11. (Govt, INGO, IGO) Please provide brief details on any sites of international importance for migratory waterbirds that may be adversely impacted by a proposed development and the assessment process that was used or is anticipated to be applied.

Currently, there are no development plans that have the potential to adversely impact the site. Nevertheless, the site managers are always consulted in every development plan proposed in the area

**Q18**

RQ12. (Govt, INGO) In your country, are there examples of local communities at Flyway Network sites that are dependent on the sites natural resources to support subsistence livelihoods? If yes, please provide details on the site/s and the use of natural resources.

**Yes,**

Additional information::

The community living around the area depends on the coast/mudflats/habitat for traditional fishing methods to meet their daily livelihood needs, such as fish, shrimp, and clams. Villages around the National Park area support the efforts of migratory bird conservation.

**Q19**

RQ13. (Govt, INGO, Sec.) Are you aware of any Flyway Network Sites or other sites of international importance for migratory waterbirds that are currently under threat? If yes, please provide details.

**Yes,**

Additional information::

Especially the areas for migratory waterbirds outside conservation areas, where communities depend on natural resources, still require the roles and support of all parties involved.

**Q20**

RQ14. (Sec.) Please provide a list of new Partners since the last MoP (December 2018).

**Respondent skipped this question**

Page 6

**Q21**

RQ15. (Partners, TFWG) Does your country/organisation have a CEPA Program addressing migratory waterbirds and internationally important sites for migratory waterbirds? If yes, please provide brief details of the program.

**Yes,**

Additional information (website links if any)::

The CEPA program under the National Partnership for Migratory Birds and their Habitat is carried out through the initiatives of individuals and/or bird conservation organizations through the community platform of BurungMigrasi\_ID. This community also serves as a platform for volunteers participating in the annual AWC activities in Indonesia Link:  
<https://www.facebook.com/kemitraanburungmigrasi>  
<https://www.instagram.com/awcindonesia/>

**Q22**

RQ16. (Partners, TF/WG) Has your country/organisation made use of the EAAFP CEPA Action Plan 2019-2024 when planning and implementing the CEPA activities?

**Yes,**

Additional information (any example of how the Action Plan was reflected)::

The CEPA program is conducted both online and offline, through webinars, trainings, and public campaigns. During the COVID-19 pandemic, many CEPA activities were conducted online due to restrictions on indoor activities and gatherings.

**Q23**

RQ17. (Govt, INGO, Corporate) What CEPA activities have taken place at Flyway Network Sites and with which groups? If applicable (under a Sister Site agreement), please describe what have you done and who have you worked with.

**Applicable,**

Additional information (list of events and/or news/report links)::

Annual Asian Waterbird Census Government, NGO, University

**Q24**

RQ18. (Partners) Has your country/organisation developed, and/or been implementing awareness-raising programs, particularly at Flyway Network Sites, with the following groups (check all that apply)?

**National and local governments,**

**Education Department/Ministry,**

**Site managers,**

**Schools/students,**

**Local communities**

**Q25**

RQ19. (Partners) Has your country/organisation hosted events for World Migratory Bird Day, World Wetlands Day or other international awareness-raising events since the last MOP (December 2018)?

**Yes,**

Additional information (list of events and any news/report links)::

- World Wildlife Day and Year of the Terns, Indonesian Seabirds working with the Indonesian Ornithologists' Union (IdOU), Paguyuban Pengamat Burung Jogja, Faculty of Biotechnology, Atma Jaya University Yogyakarta (FTb UAJY), Burungnesia and in collaboration with Mongabay. id and birdwatcher.id, Hongkong Birdwatching Society, Japan Fund for Global Environment, and East Asian Australasian Flyway Partnership held a webinar entitled "Is It Important to Protect Seabird Migration Paths?". Link: [https://www.youtube.com/watch?v=ilJjUEpN\\_y0](https://www.youtube.com/watch?v=ilJjUEpN_y0)
- Article about World Migratory Bird Day 2022 with the theme "Light Pollution". Link: <https://bit.ly/artikelmongabayindonesia>
- A webinar on "Artwork to Support Conservation" was organized by Indonesian Seabirds on Thursday, January 6, 2022, at 15.30-17.30 WIB via Zoom in collaboration with IdOU, Atmajaya University Yogyakarta, and the Jogja Bird Observer Association (PPBJ)
- Many others waterbird monitoring activities

## Q26

RQ20. (Partners, TF/WG) Has your organisation/group been engaging the public regularly through any media channels, including social media, to promote the conservation of migratory waterbirds and the wetlands they use? If yes, please specify the type of media channels by marking boxes that apply.

**Social media (e.g., Facebook, Instagram, Twitter, Weibo, YouTube, and others)**

Additional information (links to media channels of your organization/group, the number of posts, and the number of views)::

WhatsApp Group: Burung\_Migrasi ID (sebelumnya KNKBBH) menjadi sarana komunikasi yang cukup intens digunakan untuk mengajak atau melibatkan masyarakat umum terkait upaya pelestarian burung-air bermigrasi dan habitatnya. **Q27**

RQ21. (Govt, INGO, TF/WG) Has there been any training or capacity building delivered to stakeholders involved in the conservation of migratory birds and wetlands? If yes, please specify the audience/participants by marking the boxes that apply.

**Government officers,**

Additional information (please provide the number of events and participants, and describe any materials or other resources about the capacity building):

Training / capacity enhancement activities for mangrove management were conducted as part of efforts to support the management of mangrove ecosystems, adaptation, and mitigation actions for climate change. The Directorate of Ecosystem Management Development conducted the training on August 30-31, 2022, at Mangrove Teluk Pangpang & TN Alas Purwo, Banyuwangi, East Java. The training aimed to identify biodiversity types in wetland mangroves to enhance the capacity of mangrove managers in managing biodiversity potential in and around mangrove areas. 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Birds of Prey 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Coastal Birds 3 oktober 2021: Online Training on Techniques for Monitoring Migratory Birds in Urban Areas

---

**Q28**

RQ22. (Govt, INGO, TF/WG) Please add below if your country/organisation has any other information regarding CEPA to report.

**Respondent skipped this question**

---

Page 7

**Q29**

RQ23. (Govt) Is there a program in your country to monitor migratory waterbird numbers? If yes, please provide details on the program, the role of volunteer counters and the monitoring efforts since MoP10 (December 2018).

**Yes,**

Additional information::

The AWC activity is held annually, endorsed by the Ministry of Environment and Forestry to all stakeholders including all technical implementing units of MoEF throughout Indonesia. In its implementation, it is also aimed at engaging various parties

**Q30**

RQ24. (INGO) In what countries is your organisation involved in migratory waterbird and/or site monitoring (select all that apply)? Please provide details on the monitoring program(s) and monitoring efforts since MoP10 (December 2018).

Additional information::

Yayasan Lahan Basah Indonesia, In the implementation of AWC Indonesia, the organizing team assisted Timor Leste in directing and managing data during the period of 2018-2021

**Q31**

RQ25. (Govt, INGO, TF/WG, Sec.) Please report briefly on data management in relation to migratory waterbird population estimates, trends and distributions.

The data and information report from AWC have been integrated into the national biodiversity database system

**Q32**

RQ26. (Partners, TF/WG, Sec.) Please report on your contribution to the migratory waterbird Conservation Status Review.

Through the discussion on the Status of Migratory Bird Protection in Indonesia, which collaborated with birdwatchers in Indonesia, several changes to the protection status of some migratory birds (to be protected) have been studied and proposed

**Q33**

RQ27. (Partners, Monitoring TF, Sec.) If you are aware of significant new information on internationally important sites for migratory waterbirds, please provide brief details.

It can refer to the project report "Improving Biodiversity Conservation of Wetlands and Migratory Waterbirds in the ASEAN Region," coordinated by Singapore and the ASEAN Centre for Biodiversity (ACB) in 2019-2020

Jakarta Bay, the seas around West Java are one of the main foraging and non-breeding roosting sites for the species. The Jakarta Bay in particular has been seen to support as much as 10% of the global population on a single day. This bay is non protected area but there were more than 18 seabirds species in this bay (<http://www.marineornithology.org/content/get.cgi?m=1193>).

**Q34**

Respondent skipped this question

RQ28. (Partners, TsC, TF/WG) Please provide details on key research on climate change impacts on migratory waterbirds and wetlands in the EAAF, published since MoP 10 (December 2018). (Please provide the web links if available online or reference for relevant publications)

**Q35**

Respondent skipped this question

RQ29. (Partners, TsC, TF/WG) Please provide brief information on areas of research programs since the last MoP (2018) about improving conservation and sustainable management outcomes at internationally important sites for migratory waterbirds.

**Q36**

RQ30. (Partners, TsC, TF/WG) Please give examples of how knowledge generated through research programs on improving conservation and sustainable management outcomes is being applied at internationally important sites for migratory waterbirds.

- Local community around the site (Jakarta Bay) know the existences of the Seabirds.
- Local community become aware why the seabirds (especially Christmas Island Frigatebird) are important and need to be protected because of their population status.
- The fishermen around the site can get more income by taking the local / foreign tourist to watch the Christmas Island Frigatebird and other seabirds around the site. (They get the positive impact from protecting the seabirds, especially the Christmas Island Frigatebird).
- Some of the fishermen are quite active by giving us the information whenever they see the seabirds.
- The local police caught four hunters who had two Christmas Island Frigatebirds and several cormorants.
- Conservation of Natural Resources - Jakarta always inform us whenever there was an accident happened on seabirds around Jakarta Bay

**Q37**

Respondent skipped this question

RQ31. (Partners, TsC, TF/WG) Please provide brief details on the development and application of best practice guidelines for waterbird and habitat conservation, including the application of traditional knowledge, published/made available since MoP10 (December 2018)?

**Q38**

Respondent skipped this question

RQ32. (Sec.) What are the best practice guidelines that are available on the EAAFP website?

Page 8

**Q39**

RQ33. (Sec.) Please provide updates on identifying/developing internet-based approaches for capacity building for migratory waterbird conservation.

1. 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Birds of Prey
2. 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Coastal Birds
3. 3 oktober 2021: Online Training on Techniques for Monitoring Migratory Birds in Urban Areas
4. Burungnesia app (birdwatcher reporting tool citizen sciences)

**Q40**

Yes,

RQ34. (Partners, TsC, TF/WG, Sec.) Have you been involved in identifying/developing capacity building materials and opportunities? If yes, please provide some details.

Additional information::

Poster Identification of Frigatebirds in Indonesia :  
bit.ly/postercikalang

**Q41**

RQ35. (Partners, TsC, TFWG, Sec.) Have you implemented activities to share skills building, tools and experience?

**Yes,**

Additional information::

1st Discussion: JAS MERAH BURUNG MIGRASI: Never forget the history of migratory birds  
 2nd Discussion: BURUNG TAK BISA BERHITUNG: Citizen Science Program Collaboration for Counting Migratory Birds in Indonesia  
 3rd Discussion: Discussion on the Status of Protection of Migratory Birds in Indonesia  
 1. 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Birds of Prey  
 2. 20 sep 2021: Online Training on Migratory Birds in Indonesia: Identification of Coastal Birds  
 3 oktober 2021: Online Training on Techniques for Monitoring Migratory Birds in Urban Areas

**Q42**

RQ36. (Partners, TsC, TFWG, Sec.) Please provide feedback on the use you have made of capacity building materials and activities for migratory waterbirds and the management of their habitat?

Increased knowledge and awareness of participants in the effort to conserve migratory birds.

**Q43**

RQ37. (Partners, TsC, TFWG, Sec.) Have you considered a training needs assessment in projects you have developed, funded, and/or implemented since MoP10 (December 2018)? If yes, please provide some additional information.

**Yes,**

Additional information::

Conducted a needs assessment and analyzed data as a basis for planning future programs, a training for site managers to support sustainable wetland management

**Q44**

RQ38. (Partners, TsC, TFWG, Sec.) Have you used the EAAFP online technical training materials for Flyway Site management? Please provide some additional information on the usefulness of the materials.

**Respondent skipped this question**

**Q45**

RQ39. (Partners, TsC, TFWG, Sec.) Have you been able to participate in any Meetings of Partner Focal Points? If yes, have any new collaborations with other Partners been developed from the meeting/s? Please provide details.

**Yes,**

Additional information::

1. ASEAN Flyway Network  
 2. Birdlife Flyway Community Practice: a webinar related to Birdlife's partners in Asia connected with migratory bird conservation and CEPA efforts

**Q46**

RQ40. (Partners, TsC, TF/WG, Sec.) Have you been able to prepare your Partner report for the MoP? Have you found any difficulties in producing your report?

The partner report is prepared collaboratively with partners so that all input and updates on the implementation of EAAFP activities can be reported.

---

**Q47**

RQ41. (Partners, TF/WG) Please provide details you have on corporate engagement at internationally important sites and in programs to develop positive outcomes for migratory waterbirds and their habitats.

Joint study with airport authorities regarding the presence of waterbirds in the airport area in relation to the potential birdstrike hazard and management of bird habitats in the airport area.

---

Page 9

**Q48**

Respondent skipped this question

RQ42. (Partners, TF/WG) Please provide brief details on your transboundary involvement in international collaborative initiatives for threatened migratory waterbirds.

---

**Q49**

Respondent skipped this question

RQ43. (Partners, TF/WG) What do you consider to be the key innovative and/or improved approaches to the conservation of migratory waterbirds and their habitats since MoP10 (December 2018)?

---

**Q50**

Respondent skipped this question

RQ44. (INGO, TF/WG, Sec.) Please provide information on the development of a list of threatened migratory waterbird populations in the EAAF in which you have been involved.

---

**Q51**

RQ45. (Govt) Which populations of threatened migratory waterbirds are protected under legislation in your country?

85 waterbird species are protected under Indonesia Law

---

**Q52**

RQ46. (Partners, TF/WG) Has your organization been involved in taking actions to reduce direct threats to migratory waterbirds? If yes, please provide some examples.

Yes,

Additional information::

Regular area security patrols are carried out every month by Wasur National Park and Berbak Sembilang National Park to prevent hunting, illegal trading, and illegal activities in the wild animal habitat areas. Seabirds Indonesia facilitated a workshop for the fishermen group from Untung Jawa Island and Tanjung Pasir, who usually work and catch fish in Jakarta Bay collaboration with Conservation of Natural Resources – Jakarta (BKSDA Jakarta) on April 2021. This workshop to minimize the seabird bycatch Encouraging the establishment village regulations for shorebirds and globally threatened resident waterbirds on the importance site for migratory shorebirds in Batubara Coastline Feb 2023 Enumerator training in Banggai Islands for collecting data on seabirds and waterbirds around fishing areas, expected to reduce the potential for seabird bycatch and hunting.

**Q53**

RQ47. (Partners, TF/WG) Please outline the contribution you have made to the development and implementation of Threatened Species Action Plans.

Burung Laut Indonesia As a consultant of Draft Decision 11 - CHRISTMAS ISLAND FRIGATEBIRD SINGLE SPECIES ACTION PLAN (<https://bit.ly/3jKKc6F>), such as the numbers of Christmas Frigatebird in Jakarta Bay from 2011-2018, the threats, and the conservation actions.

WHIS working on shorebirds protection by making village regulation on Spoon-billed Sandpiper, Far-eastern Curlew, Great knot and Nordmann's Greenshank sites

In 2019, Burung Indonesia advocated to the Maluku provincial government regarding the proposal of the North Seram Marine Protected Area (KKP) based on the stopover location of the Chinese Crested Tern.

**Q54**

RQ48. (Partners, TF/WG) Has your organization been involved in any program(s) to assess changes in the status of populations of threatened waterbirds? If yes, please provide details.

Yes

**Q55**

RQ49. (Partners, TF/WG) What has been your involvement in the development and implementation of Regional Action Plans?

Single species action plan: Cikalang Christmas

**Q56**

RQ50. (Govt, TF on Task Force on Illegal Hunting, Taking and Trade of Migratory Waterbirds) What mechanisms are in place to reduce and, as far as possible, eliminate, illegal hunting, take and trade of migratory waterbirds?

Wasur NP & Berbak Sembilang NP : Regular security patrols by forest ranger, community engagement  
Online monitoring on illegal wildlife trade

---

**Q57**

RQ51. (Govt) In your country, what are the current key national legislation and policy instruments that have provisions that cover the conservation of migratory waterbirds and their habitats?

- Act number 5 of 1990 concerning the conservation of natural resources and ecosystems
  - Government Regulation number 7 of 1999 concerning the conservation of plants and animals
  - Minister of Environment and Forestry Regulation number 106 of 2018 concerning protected species of plants and animals.
- 

**Q58**

RQ52. (Govt) In your country, what are the current multilateral regional and bilateral agreements and other regional mechanisms that include provisions on the conservation of migratory waterbirds and their habitats?

Not yet

---

**Q59**

RQ53. (Partners, TFWG) Please provide any suggestions you have on how existing multilateral regional and bilateral agreements, and other regional mechanisms, could be strengthened to deliver better outcomes for migratory waterbirds.

Not yet

---
