

## EAAFP MOP11

### Field Trip Schedule

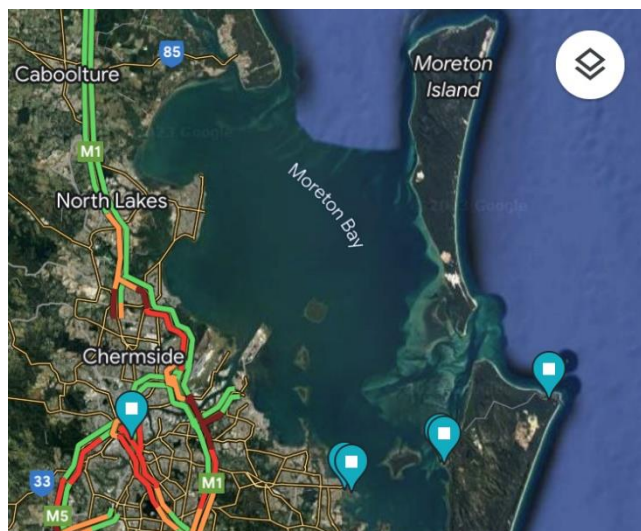

North Stradbroke Island © The Australian Government

We look forward to seeing you on the day of the field trip and below you can find a schedule of activities for the day. Please note that we will need to closely keep to this schedule as we rely on multiple modes of transport for the day!

To be prepared, please ensure you bring along a water bottle, hat to protect you from the sun, a wind break or raincoat (especially in case it is breezy on the boat), binoculars and sunscreen. You will also need to wear closed toe shoes as we will go for a walk in the afternoon. We will also have sunscreen and insect repellent available for use if needed, as well as a few scopes and binoculars available for sharing.

Please note that an induction is required as part of our field day. Can you please ensure you have watched the following video ahead of the day: <https://youtu.be/iK6yl8EYJPE> Closer to the date we will share with you a risk assessment and recommended procedures for your safety on the day.

You can access our stops in Google Maps: <https://www.google.com/collections/s/list/8ew9z1wIQVmZ54v454nK6A>
