International Consultancy Meeting On Conservation Strategy For The Dalmatian Pelicans In The East Asian – Australasian Flyway
16-23 July 2019, Khovd city, Mongolia

Formation of the East Asia Dalmatian Pelican Task Force

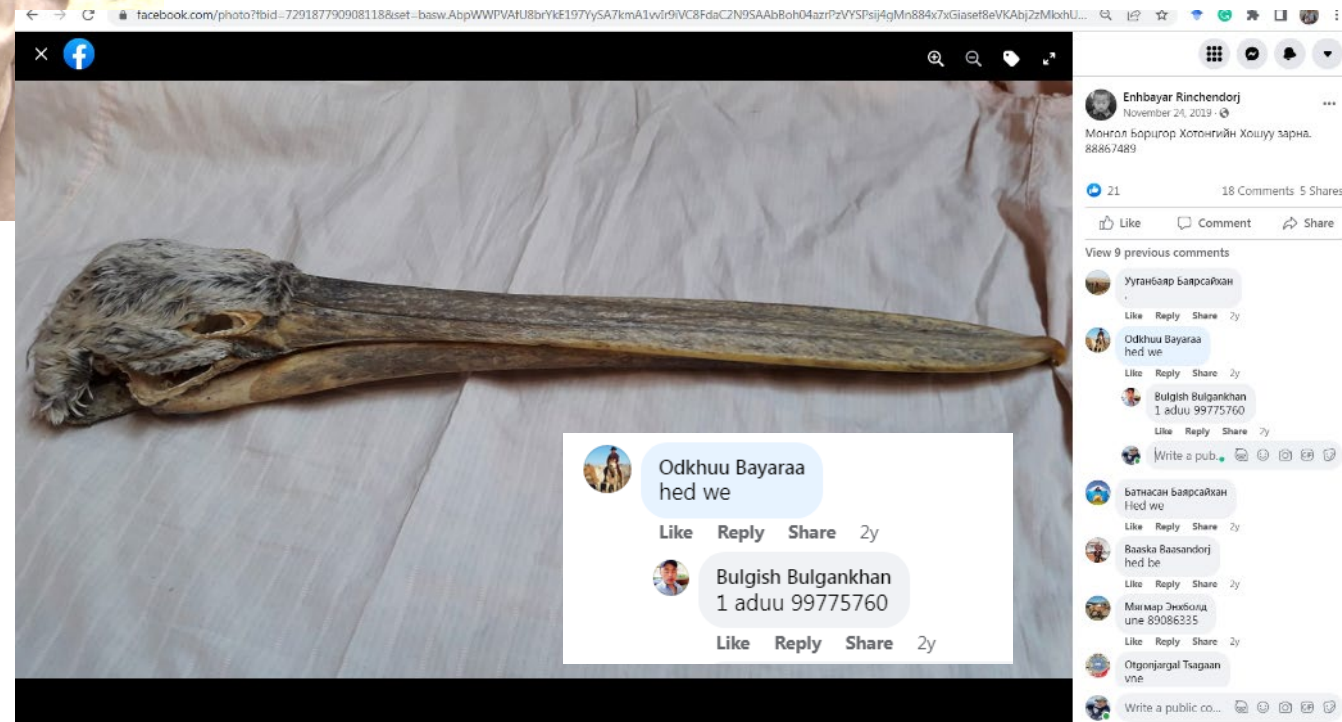

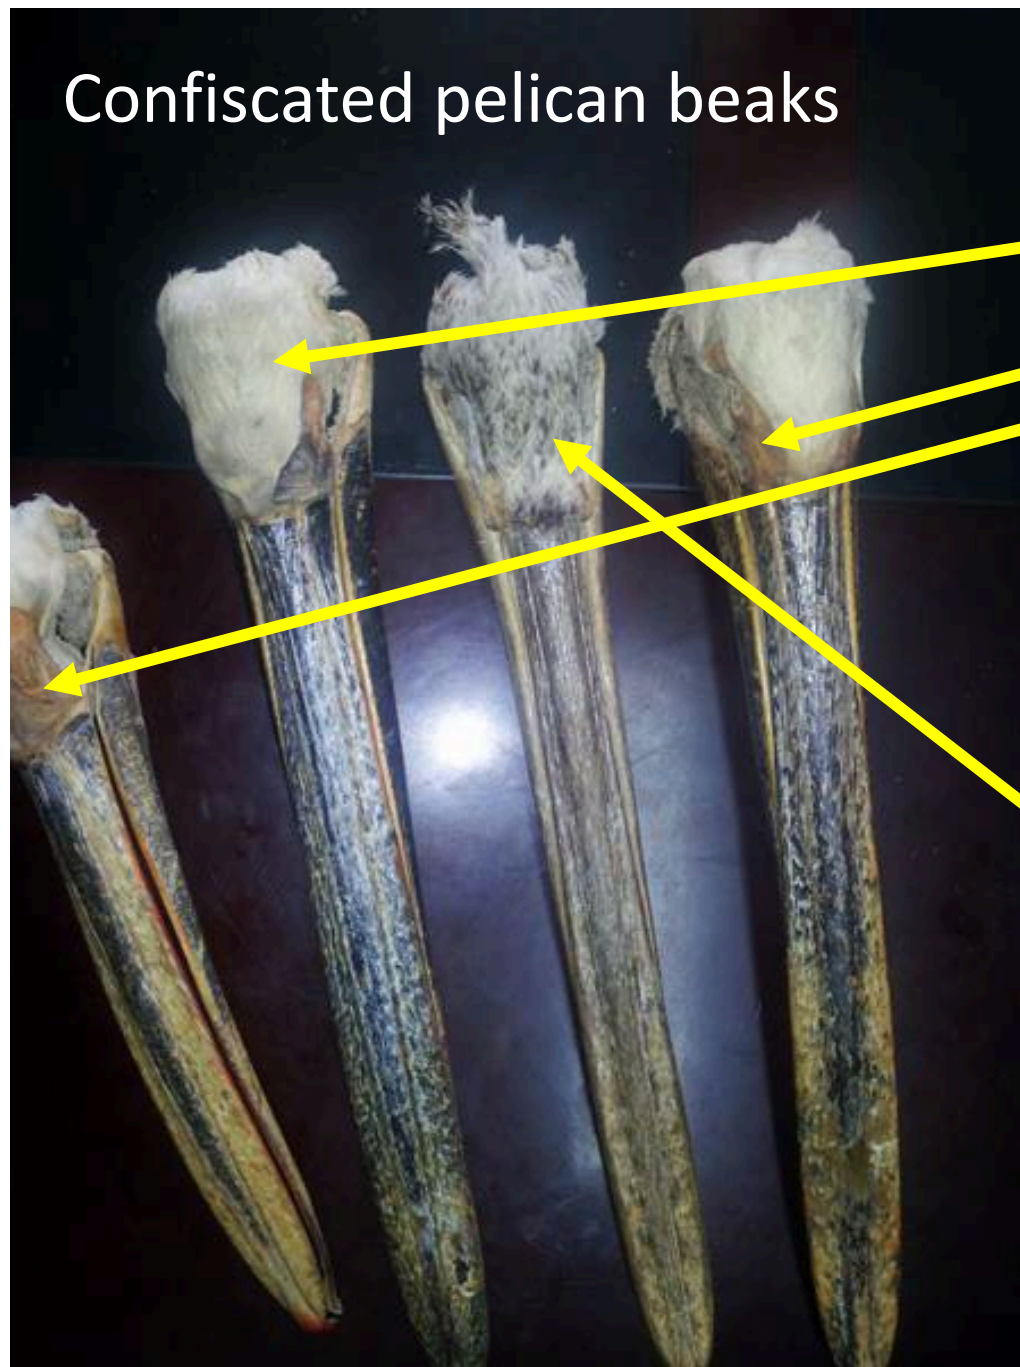

ELEVENTH MEETING OF PARTNERS TO THE PARTNERSHIP FOR EAST ASIAN – AUSTRALASIAN FLYWAY
Meeanjin/Brisbane, Queensland, Australia, 12-17 March 2023

Tradition that harms the faith of Dalmatian pelicans in East Asia

Mongolia's problem may become a global problem
There is a risk that this might affect population in Kazakhstan, Russia, and even Africa

Great white pelican

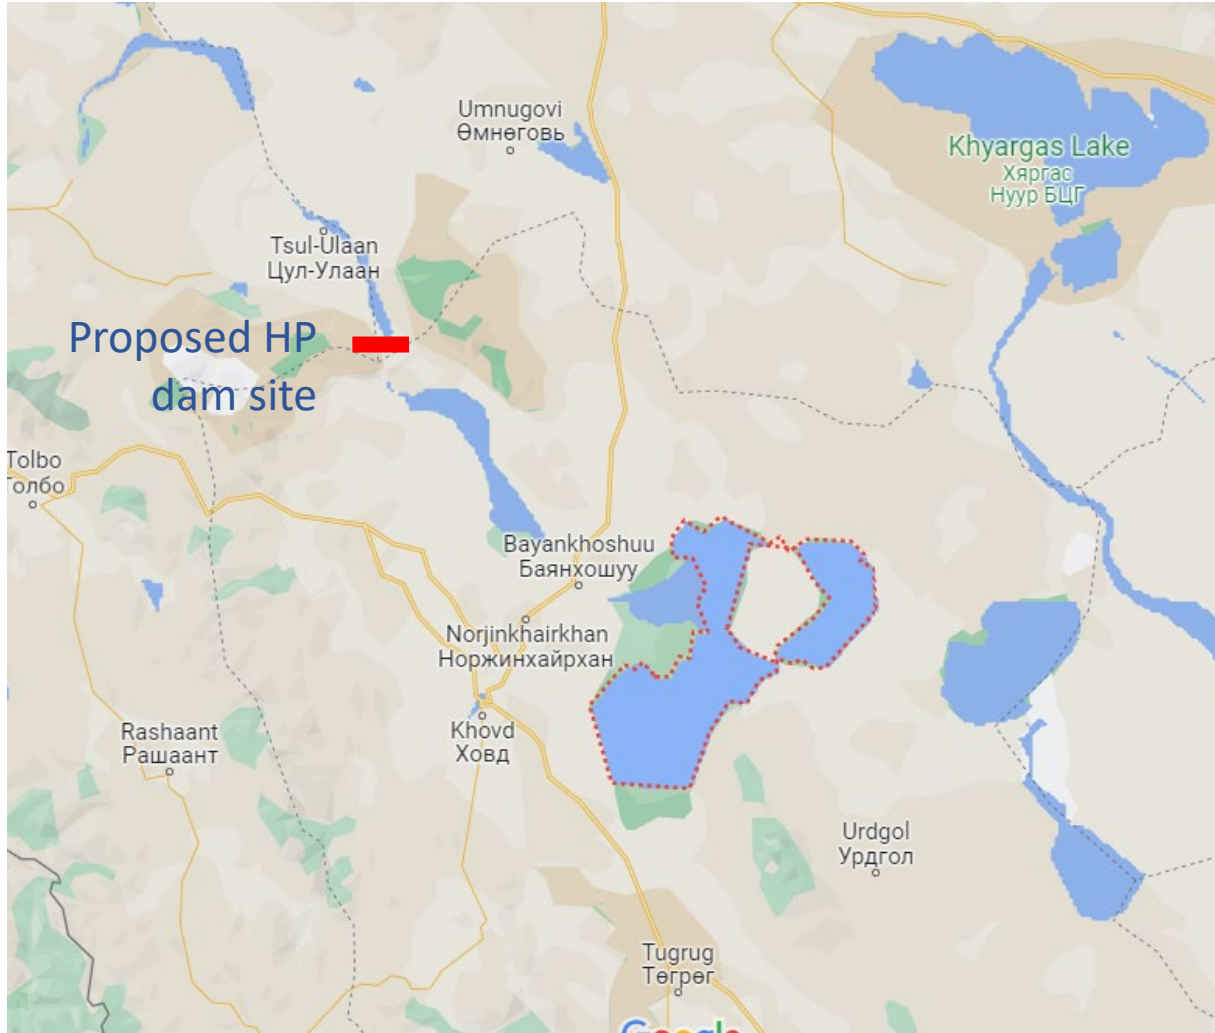

Dalmatian pelican

Breeding habitat degradation in Airag Lake, Mongolia

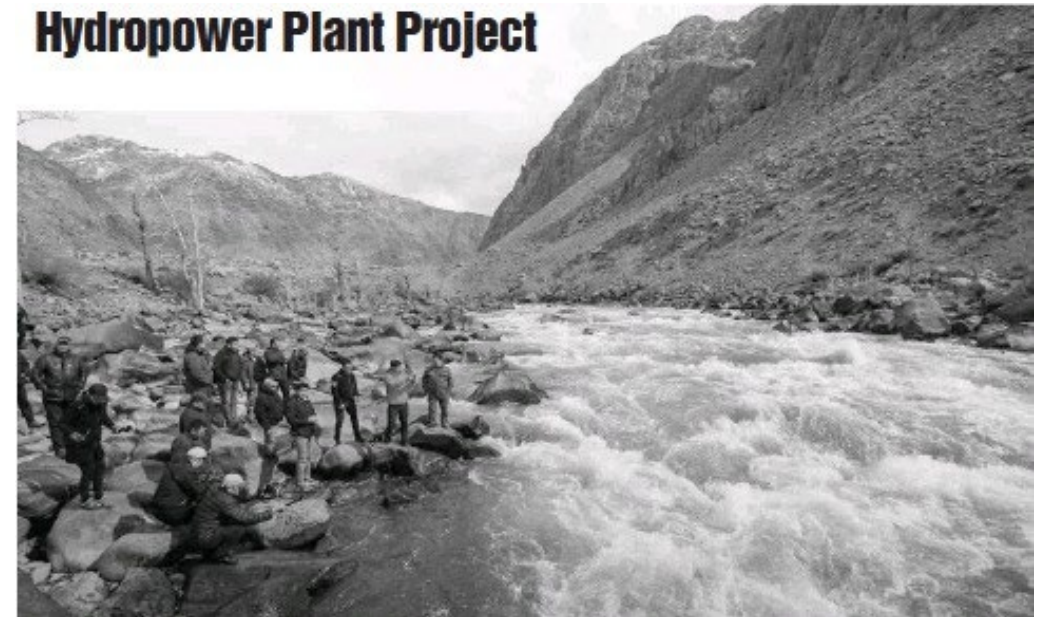

Planned hydropower dam threat

Khar Us Lake is now threatened by the construction of Erdeneburen 90 MW hydropower plant. Once the dam is built the locations of last breeding colonies will be negatively impacted, perhaps forever.

Hydropower Plant Project

Research activities

In Mongolia:

Started nest monitoring in Khar Us Lake and Airag Lakes

Studies on

water quality

impact on livestock on breeding areas

water quality

fish movement and abundance

GPS tracking, 8 individuals

In China:

Listed the priority conservation animal and action plan

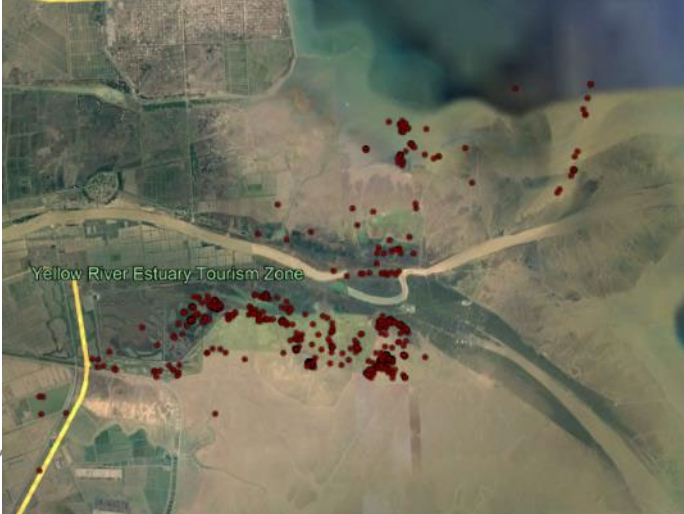

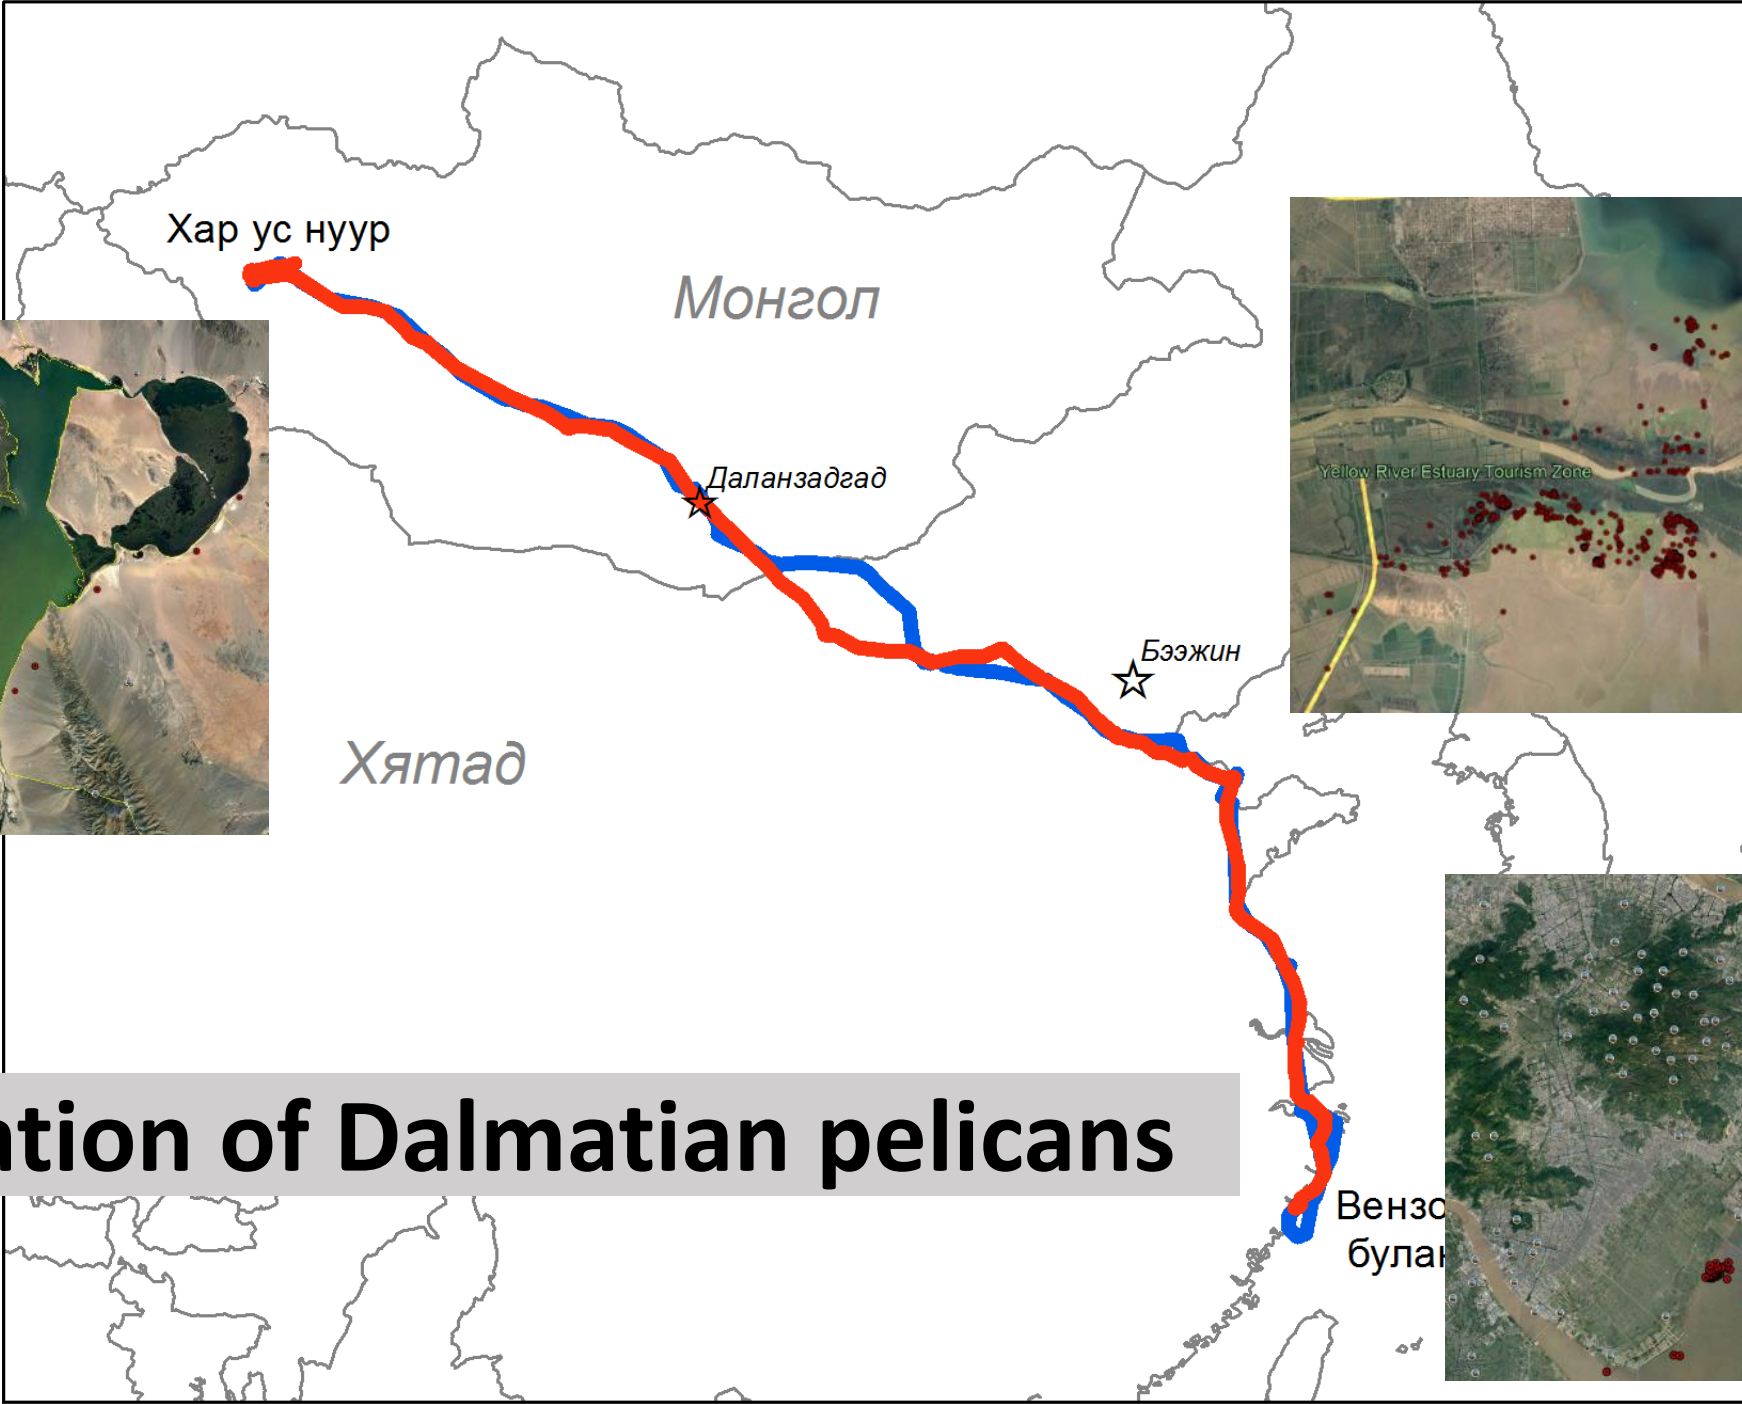

China DP conservation group was set up

Pelican census during China coastal waterbird census

卷羽鹈鹕 在中国

卷羽鹈鹕国际工作组
2019年7月于蒙古国 (S. Vivalan Fly - EAAFP)

- 物种名称: *Pelecanus crispus*; 国家二级重点保护鸟类, 中国珍稀濒危红色名录物种 (EN) 物种, IUCN红色名录近危 (NT) 物种, 一种大型游禽类群。
- 全球种群划分为3个亚种: 1. 黑海-地中海亚种, 包括保加利亚的东黑海种群; 2. 里海和西南亚种; 3. 蒙古亚种, 包括蒙古、哈萨克斯坦和俄罗斯。3. 蒙古亚种, 蒙古主要分布区, 越冬于中国新疆塔里木盆地。
- 蒙古种群全球种群约 1,400-15,400只, 由于种群减少, 种群结构和遗传多样性, 自然保护的需求不断增加 (150只), 甚至更少, 不同种群间的小规模下降。
- 2019年7月, 蒙古国在 EAAFP 第十届大会上 (MOP10) 期间通过了《蒙古卷羽鹈鹕行动计划》(Pelecanus crispus) 专项行动方案 (行动计划)”。2019年7月, 蒙古国和蒙古国正式签署了

The East Asian - Australasian Flyway Partnership

卷羽鹈鹕东亚种群亟需您的拯救!
Dalmatian pelicans in East Asia need your help!

During the 10th Meeting of Partners of EAAFP, which was held in Hanoi, China in December 2018, a decision to adopt the International Single Species Action Plan for the Conservation of the Dalmatian Pelican (Pelecanus crispus) was made by the partners. Following up on the decision, an international workshop meeting in Dalmatian Pelicans in East Asia was organized in Mongolia. China and South Korea, EAAFP, WWF, MIGRATE, and WWF jointly established the EAAFP Dalmatian Pelican Task Force.

The Dalmatian Pelican Task Force was formed with its membership, which includes both the stakeholders of breeding and non-breeding grounds of the species as well as the international experts in pelican conservation. During the meeting, the Dalmatian Pelican Conservation Action Plan (DPCAP) was developed. The DPCAP is a strategic plan for the conservation of the species and its breeding and non-breeding grounds. The DPCAP is a strategic plan for the conservation of the species and its breeding and non-breeding grounds. The DPCAP is a strategic plan for the conservation of the species and its breeding and non-breeding grounds.

蒙古卷羽鹈鹕国际工作组, 在2019年7月于蒙古国举行的第十届东亚-澳洲-亚洲飞道伙伴关系会议上, 通过了《蒙古卷羽鹈鹕行动计划》(Pelecanus crispus) 专项行动方案 (行动计划)”。2019年7月, 蒙古国和蒙古国正式签署了

БОРЦГОР ХОТОНГОО ХАМГААЛЪЯ!

SAVE THE DALMATIAN PELICAN!

Research and conservation needs of the eastern population of Dalmatian Pelican *Pelecanus crispus*

БОРЦГОР ХОТОНГОО ХАМГААЛЪЯ!

Борцгор хотонг хамгаалах 12 шалтгаан

1. Борцгор хотон нь дэлхийн хамгийн их тоо бүхий борцгор хотоннуудын нэг юм.
2. Борцгор хотон нь дэлхийн хамгийн их тоо бүхий борцгор хотоннуудын нэг юм.
3. Борцгор хотон нь дэлхийн хамгийн их тоо бүхий борцгор хотоннуудын нэг юм.

Борцгор хотон (*Pelecanus crispus*)-ийн хамгааллын талаар холбогдох оролцогчид нэгдсэн ойлголттой болох, хамгаалах үйл ажиллагааны төлөвлөгөөг зэцэглэн боловсруулах... See more

Nesting platforms

Challenges:

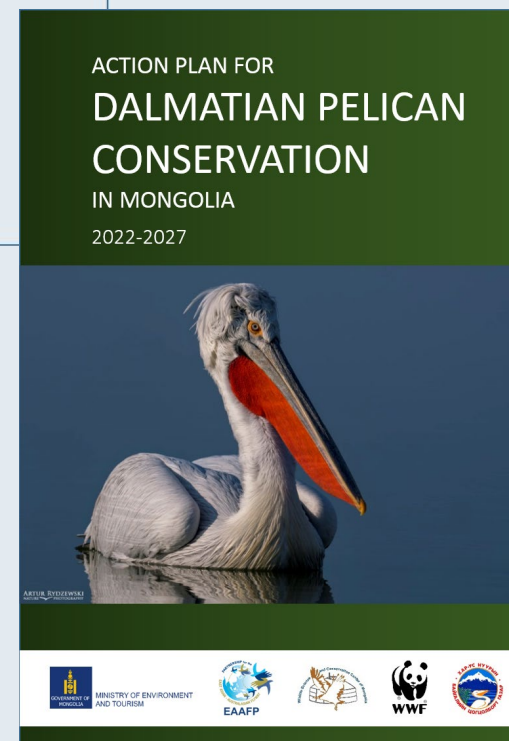

- Find potential sites for nest platforms
- Need to attract pelicans in nesting platforms

Risks:

- Take many years of effort
- Pelicans may not use them
- Cause more disturbances
- High cost associated with monitoring

- Finish the National Action Plan for Dalmatian Pelican Conservation in 2023
- Get the approval of the Action Plan
- Start the implementation
