Report on Secretariat Activities and Budget 2019 - 2022

1. Introduction

The EAAFP Secretariat follows the fiscal year of the R.O Korea that starts on 1 January and ends on 31 December and maintains accurate and detailed financial records of its operation that are inspected by an international independent auditor, their annual auditor's report till 2019 - 2021 can be made available to Partners for inspection on the EAAFP website.

Due to the COVID-Pandemic, the 11th Meeting of Partners (MOP11) has to be postponed to March 2023, which was supposed to be in early 2021, hence the 2 years cycled report for 2019-2020 from the Secretariat could not produce and report to the Meeting of Partners, instead, the Secretariat regularly reported to the Management Committee and approved the work and budget plan for 2021 – 2022 from the Finance Sub-Committee.

Since the EAAFP Strategic Plan for 2019 – 2028 has been adopted in MOP10, the Secretariat developed the work plan for 2019 – 2022 with a focus on the implementation of the Key Result Area and allocated the budget accordingly. Because of the travel restriction from COVID, the Secretariat and Partners could not implement and initiate some planned activities but delivered the most which were not required a oversea journey e.g. CEPA activities, Regional Activities (Yellow Sea World Natural Heritage Sites nomination, Regional Flyway Initiative)

2. Report on activities 2019 – 2022

Activities undertaken in 2019 (Highlights: <https://www.eaaflyway.net/work-and-achievements-of-eaafp-partners-and-secretariat-in-2019/>)

Objectives	Activities	Results/outputs	Indicators
1. Develop Flyway Site Network (Sites that are designated as FNS are often designated)	Provide advice and technical support to existing sites and the designation of new Flyway Network Site (FNS); Provide small grants to on a trial basis between 2019 - 2020, to promote their designation	New four FNSs were designated in RO Korea (3 including Incheon Songdo Tidal Flat Ramsar site), Cambodia (1) and supported small grants for promotion events or producing materials (e.g. signboards, leaflets and brochures) for public	New important sites for migratory waterbirds (mainly wetland) were nominated and 3 signboards, leaflet, celebrating events for new sites were supported. The number of news disseminated via EAAFP website and social media channel

as Ramsar Sites later)		awareness. Flyway Site Network now has 145 sites.	
2. CEPA on migratory waterbirds and their habitats	Provide regular news about the EAAFP and the Ramsar Convention etc on the EAAFP website and social media channels. Publishing a quarterly eNewsletter to all 1,854 subscribers including EAAFP Partners	News uploaded on to the EAAFP website at least on a weekly basis, and Facebook / Twitter / Instagram daily	Facebook members now increased to >65,000 (400 posts) Twitter members now increased to > 1200 (400 posts) Instagram members now increased to >660 (400 posts)
	Launch a new “Friday Network Site (FNS)” campaign	29 FNS Card News published on social media every Friday	
	CEPA activities and update, produce and distribute CEPA materials	Talks and seminars, booths at local events were organized to reach out to general public and youth. Name Card Holders on Black-faced Spoonbill, White-naped Crane created. A new version of EAAFP introduction video produced.	More than 20 talks and events reaching out to over 9,000 students and general public through meetings, workshops and events CEPA materials were distributed
	Promote World Wetland Day and World Migratory Bird Day events in the Flyway countries	2019 WMBD video and factsheet with the theme of “Be the Solution of Plastic Pollution” published. Supported CMS to produce different national languages in EAAF. A WMBD public event for local people was organized in RO Korea together with over 100 participants including students, teachers and site managers. Small grants for EAAFP Partners were provided for partners.	In RO Korea, EAAFP Secretariat organized WMBD events in May and Oct 2019. In May, by inviting Ramsar Secretary-General, the Ramsar Convention and importance of wetland were recognized. 12 small grant funds in total for WMBD celebrations in Mongolia, Philippines, Bangladesh, Cambodia, DPR Korea in the Flyway were provided through WMBD Small Grant Program (Webpage)
	Photo Contest and Bird Race	EAAFP launched its first which is in line with the EAAFP’s theme for 2019 – 2020, to highlight that human being is linked with migratory waterbirds and the wetlands they rely on, in our daily lives,	Photo contest (Webpage)- 351 entrants, 1116 entries. 2019 HK Bird Watching Marathon Race (Article) – Over 100 participants, 26 teams

		<p>culture, tradition, and art. Moreover, everyone along the Flyway, including farmers, fishermen, land managers, NGOs, researchers and others can play a role in the conservation of migratory waterbirds and the sustainable management of their habitats.</p> <p>Sony Electronics Asia Pacific was the sponsor of the contest, fully supporting the project. In total 1,116 photos were submitted by 351 participants from within the EAAF and outside of the flyway. It contributed enormously to raise awareness of conservation of migratory waterbirds and habitats in the EAA Flyway by reaching to general public, Site Managers, Youth.</p> <p>EAAFP was also able to raise resources to organize public events in the form of bird race and public lecture in Hong Kong, Thailand, Sep in 2019</p>	Bird Walk (Article) in Thailand – 54 participants in total
	New CEPA Action Plan for 2019 – 2024 was finalized and integrated into the newly developed Resourcing Plan	Implementation of the CEPA Action Plan	CEPA action plan was introduced during 3 site managers training, also CEPA strategy and actions were reflected in objectives 1-6
3. Research, monitoring, knowledge generation & Capacity building	Annual Small Grant program to support projects of EAAFP Working Groups (WG) and Task Forces (TF)	EAAFP Secretariat improved the application guideline and supported WG and TF activities proposals through the EAAFP Small Grant program	7 WG/TF projects were supported e.g. Survey, Assessment, Monitoring and etc. (Article)
	Collect and translate (with the support of the	The new 2019 – 2028 Strategic Plan and 2018 – 2024 CEPA	Translated 13 different Partners languages of key documents

	Country Partners) the key documents from MOP10	Action Plan translated into Partners language	
	Connecting relevant people and participating or hosting events/workshops along the flyway	Engage EAAFP Partners and collaborators participated in the EAAFP Secretariat's 10 th anniversary event and Year-end reception; Co-organize and attend the relevant meetings in the flyway	Over 200 participants attended (Article) to the Secretariat's event; Engaged in 24 workshops and events along the flyway
4. Capacity building	Support the national-wide activities and site manager workshop by sharing of experience and best practice from Ramsar and EAAFP sites	Identify the needs of the organization of national and regional site managers workshop	Organization of three national site managers workshop in RO Korea, DPR Korea and China
5. Flyway-wide approaches to conservation	Support IUCN Yellow Sea WG meetings as a co-facilitator to build on IUCN Res 28 and 42, World Heritage nomination and other initiatives	Support to the inscription of the Coast of Yellow-Sea – Bohai of China (Phase I) and provide ongoing supports on Korean Tidal nomination process to World Heritage List. As a part of the implementation of the IUCN Res, with IUCN and RRC-EA, organized two workshops and meetings; In the purpose of public awareness at national and international level in DPR Korea, EAAFP supported the organization of Swan Goose festival in Mundok, Ramsar Site.	Two Yellow Sea WG meetings held in Beijing, China and Shinan, RO Korea (Nov)
	Support the 2nd ASEAN Flyway Network meeting	Work with the ASEAN Centre for Biodiversity (ACB) and the Singapore government to hold a meeting of the Network in Malaysia and to develop the Phase II proposal	The inaugural Meeting of the ASEAN Flyway Network was held in Malaysia (May) (Article)
	Support the EAAFP Sister Sites arrangement	Liaising the Sister Site arrangement between Incheon Metropolitan City, RO	10th Sister sites registered (Article)

		Korea and Hong Kong, PR China (Nov)	
	Develop an EAAFP Resourcing Plan at EAAFP Finance Sub-Committee meeting (Sep)	To mobilize resources for high-impact interventions for Partners, the Resource Plan was developed with the support of the members of Finance Sub-Committee	The Resource Plan was draft and distributed with Partners.
	Establishment and operation of the new EAAFP Science Unit	In EAAFP MoP10 (2018), Science Unit was established officially	

Activities undertaken in 2020 (Highlights: <https://www.eaaflyway.net/2020-eaafp-work-and-achievements/>).

Objectives	Activities	Results/outputs	Indicators
1. Develop Flyway Site Network (Sites that are designated as FNS are often designated as Ramsar Sites later)	Provider advice and technical support to existing sites and the designation of new Flyway Network Site (FNS); Continuously provide small funds to on a trial basis, to promote their designation by organizing celebrations, production of signboards and leaflets etc	New 3 FNSs were designated in RO Korea (Daebudo Tidal Flat, Ramsar Site), Australia (South-East Gulf of Carpentaria: Leichhardt River to Gore Point – Wernadinga Coast), Myanmar (Inlay Lake Wildlife Sanctuary, Ramsar Site) and supported the Small Grants for promotion events or producing materials (e.g. signboards, leaflets and brochures) for public awareness. Flyway Site Network now has 148 sites; Provide technical advice on local sites – Hwaseong Wetlands (EAAF142), Incheon Songdo Tidal Flat (EAAF 145)	New important sites for migratory waterbirds (mainly wetland) were nominated The number of news items disseminated via EAAFP website and social media channel (link)
2. CEPA on migratory waterbirds and their habitats	Provide regular news about the EAAFP, the Ramsar Convention etc on the EAAFP website and social media channels; publish a quarterly-released eNewsletter	News uploaded to the EAAFP website at least on weekly basis, and Facebook / Twitter / Instagram on daily basis. 29 FNS Card News published on social media every Friday	Facebook members now increased to >64,000 (>500 posts) Twitter members now increased to > 1700 (>500 posts)

			<p>Instagram members now increased to near 1,000 (>500 posts)</p> <p>EAAFP eNewsletter with 3,460 subscribers</p>
	Update, produce and distribute CEPA materials and participating or organizing CEPA activities	<p>Webinars were organized and talks for local events to raise awareness to the general public and youth.</p> <p>A new brochure of EAAFP targeting for general public was produced.</p>	<p>Six webinars were organized reaching over 1,000 audiences. Two other hybrid online talks took place with local universities; A new brochure of EAAFP was made in English and Korean</p>
	Promote World Wetland Day and World Migratory Bird Day events in the Flyway countries	<p>Social media and news article was posted to promote World Wetland Day in 2020. A Flyway Network Site in Myanmar (Inlay Lake Wildlife Sanctuary) was announced on that day. WMDB small grant for EAAFP was provided. A WMBD 2020 video was produced. Webinars were conducted to reach out to the general public. A photo contest was organized in line with WMBD., #LegflagChallenge Photo contest was launched in line with the WMBD 2020, in collaboration with BirdLife International, Oriental Bird Club and Spoon-billed Sandpiper Task Force, to encourage photographers and bird watchers to report sightings of tags and legflags of waterbirds. The event was held from Sept to mid-November. (link)</p>	<p>World Wetlands Day was promoted with 9 SNS posts and 1 news article and email and newsletter alert to Partners.</p> <p>15 projects from 8 flyway countries for the WMBD small grant in the two events (May and Oct). (link) The WMBD video was shared and viewed by more than 4,000 views in Eng (on youtube) and 3,000 views in the Korean version (the video was posted by MOEK). A Tagalog version was produced too. Three webinars were carried out on Zoom (over 600 attendees) and Facebook Live (over 1.6k views).</p> <p>Two watch parties were organized on Facebook with over 5.7k views. (link)</p> <p>Near 120 entries from 11 countries joined the campaign. Three winners were selected. (link) The campaign helped to linked up with bird</p>

			watching communities and scientists.
	Hold a flyway-wide Youth Forum organization	The first-ever Flyway Youth Forum , organized by The East Asian – Australasian Flyway Partnership (EAAFP) and Youth Engaged in Wetlands (YEW) , sponsored by Hanns Seidel Foundation , was held virtually over two consecutive weekends from 28 Nov to 6 Dec, 2020. Its aim was to connect youth with different backgrounds in the EAA Flyway through a series of intensive virtual workshops, platform exchanges, and networking activities, developed for young people between the ages of 18 and 30 years old to explore youth engagement in the conservation of wetlands and migratory waterbirds along the flyway. (link)	A total number of 134 attendees, including 87 selected youth leaders from 26 countries or regions, 28 trainers, speakers and facilitators participated in the virtual event. A youth presentation platform, 5 training workshops and a Flyway World Café (international Dialogue) were carried out. Ms. Martha Rojas Urrego, Secretary General of Ramsar Convention Secretariat gave keynote speech, and Mr. Nick Cramer from the Secretariat of the Ramsar Convention on Wetlands contributed as a panelist. A youth Declaration was produced by the youth participants at the end of the Forum. (link)
	Develop different languages of EAAFP webpage	In progress	
3. Research, monitoring, knowledge generation and exchange	Support the activities of the EAAFP Working Groups (WG) and Task Forces (TF)	EAAFP Secretariat improved the application guideline and supported WG and TF activities proposals on illegal hunting, trading issues and key species conservation through the EAAFP Small Grant program. Development of the guideline for the partnership; Strengthen the Single Species Network	7 WG/TF projects were supported e.g. Survey, Assessment, Monitoring and etc. (link) Establishment of a national Far Eastern Curlew Network for Korean Peninsula and continuing work of the Incheon Black-faced Spoonbill Network
	Collect and translate (with the support of the Country Partners), the	The new translated 2019 – 2028 Strategic Plan and 2018 – 2024 CEPA Action Plan uploaded on the Key	Uploaded 9 different Partners languages of key documents (Strategic Plan , CEPA Action Plan)

	key documents from MOP10	Documents webpage after the proofread by Partners	
4. Capacity building	Support the sharing of experience and good practices at the international level for the management of FNS	Identify the needs of the organization of national and regional site managers workshop	Organization of an international symposium for Hwaseong Wetlands (link)
	Support the national-wide activities and site manager workshop by sharing of experience and best practice from Ramsar and EAAFP sites	Identify the needs of the organization of national and regional site managers workshop	Organization of at least one national site managers workshop and support of the activities in the flyway
	Produce the tutorial (webinar) for the Reporting Template and EAAFP Resourcing Plan	Partners submit their report on time with all questionnaires filled. The Resourcing Plan be endorsed by the Partnership at MOP11.	The level of understanding of the Partners on the purpose and the elements of the Reporting Template and the Resourcing Plan.
5. Flyway-wide approaches to conservation	Support Yellow Sea WG meetings, building on IUCN Res 28 and 42, World Heritage nomination and other initiatives	Finalize the IUCN WG Workplan and implement proposed activities with three governments at the scheduled 4 th meeting; the side event at IUCN WCC 2020; Support the Phase II of the Coast of Yellow-Sea – Bohai of China and provide ongoing support on Korean Tidal Flat nomination process to World Heritage List which will be decided in July 2020	Provision of the technical advices for the Korean Tidal Flat nomination; Finalization of IUCN Working Group Workplan and activities items
	Support the new design of the ASEAN Flyway Network initiative Phase II and expansion of the ASEAN Network	Work collaboratively with the ASEAN Centre for Biodiversity (ACB) and the Singapore government to plan the phase II; Synergized with IBRRI Secretariat	MOU with IBRRI Secretariat
	Develop new EAAFP Sister Sites arrangement	Develop the guideline of the Sister Site Program and assist Partners to maintain and implement their Sister Site arrangement	Organization of the Incheon – Hong Kong Black-faced Spoonbill Conservation Forum

	Support and promote the Partnership through presentations, meetings, side-events and exhibitions in the Flyway	Contribute to CMS COP 13 in Feb 2020; Engagement with other global and regional entities	Inputs to the global agenda linking with new Strategic Plan in CMS COP , UNDP-GEF Yellow Sea Large Marine Ecosystem Commission, GCF IEU Talk and NEASPEC SOM Meeting

		Factsheet of selected tern species in EAA Flyway; 8 tern species were introduced as “Tern of the Month” and promoted on social media	disseminated to 600 audiences; Published 8 key tern species pages (link); Introduced on National Geographic Korean Newsletter (link)
	Develop different languages of EAAFP webpage	New national pages developed in local language.	One national pages set up, two translated materials in progress.
3. Research, monitoring, knowledge generation and exchange	Support the activities of the EAAFP Working Groups (WG) and Task Forces (TF)	Receiving the application and selecting the most meritorious projects under eligibility (Project proposals were evaluated by the EAAFP Technical Sub-Committee). Finalization of the analysis of the EAAF Conservation Status and shared with Partners.	Projects in 7 countries were selected and currently implementing EAAFP MOP11 Papers are submitted (link)
	Collect and translate (with the support of the Country Partners), the key documents from MOP10	Strategic Plan brochure and translation of MOP10 key documents to additional local languages completed and uploaded.	
4. Capacity building	Support the sharing of experience and good practices at the international level for the management of FNS	Five national-level meetings for RFI were held (e.g. Indonesia, Thailand, Viet Nam, Bangladesh and the Philippines)	
	Support the national-wide activities and site manager workshop by sharing of experience and best practice from Ramsar and EAAFP sites		
	Produce the tutorial (webinar) for the Reporting Template and EAAFP Resourcing Plan	Partners submit their report on time with all questionnaires filled. The Resourcing Plan be	The level of understanding of the Partners on the purpose and the elements of the Reporting Template and the Resourcing Plan.

		endorsed by the Partnership at MOP11.	
5. Flyway-wide approaches to conservation	Support Yellow Sea WG meetings, building on IUCN Res 28 and 42, World Heritage nomination and other initiatives	Implement proposed activities of IUCN Yellow Sea WG; Supported the organization of the side event at Ramsar COP; Support the maintenance of Phase I (management plan and the advisory group for Phase II planning of the Coast of Yellow-Sea – Bohai of China, Korea Getbol; Raising awareness of the wetlands of the DPR Korea globally	Working Group meeting with co-organizers, Partners and stakeholders; Arrangement of the bilateral meetings over Ramsar COP; Study Visit the Wadden Sea Trilateral, World Heritage sites and the Secretariat with the Hannsa Seidal Foundation and Korean local NGOs; MoU with Korea Marine Environment Management Corporation (KOEM) under the Ministry of Ocean Fisheries (link); Provision of the inputs for 2022 Yellow Sea Status Analysis.
	Support the new design of the ASEAN Flyway Network initiative Phase II	Work collaboratively with the ASEAN Centre for Biodiversity (ACB) and the Singapore government to plan the phase II.	Support the activities in ASEAN region and the Phase II. Attend ACB Biodiversity Summit
	Develop new EAAFP Sister Sites arrangement	Develop the guideline of Sister Site arrangement after analyzing about other 7 sister sites status	A guideline developed; the number of new Sister Site.
	Support the network in NE Asia	Work with North-East Asian Subregion Program for Environment Cooperation (NEASPEC / UNESCAP) to support the transboundary cooperation among protected wetlands in the Tumen Estuary	Technical support to implement the project in regard to the habitats for migratory waterbirds.
	Support and Promote the Partnership through presentations, meetings, side-events	Contribute to CMS COP, IUCN WCC, CBD COP and etc	Inputs to the global agenda linking with new Strategic Plan.

	and exhibitions in the Flyway		
--	-------------------------------	--	--

3. Synergies and Partnership [Annex 4]

The Secretariat continued to streamline activities in line with Multilateral Environmental Agreements (MEAs). The Secretariat participated in the Thirteenth Meeting of Conference of the Parties to the Convention on the Conservation of Migratory Species of Wild Animals (CMS COP 13) held in Gandhinagar, India, in 2020; CBD subsidiary meeting in 2020; the 14th meeting of the Conference of the Contracting Parties of the Convention on Wetlands (Ramsar COP14) held in Wuhan, China and Geneva, Switzerland in 2022, where issues such as Illegal Killing, Taking and Trade of Migratory Birds, Flyway-scale conservation for migratory waterbirds were brought up through meetings, interventions and side events.

On the regional scale, Memorandum of Understanding (MoU) were signed between the Secretariat with other Ramsar Regional Initiatives, including Indo-Burma Ramsar Regional Initiative (IBRRI) in 2020, and Ramsar Regional Centre – East Asia in 2021, to strengthen wetland and migratory waterbirds conservation like information sharing, and avoid duplication of efforts such as capacity building.

Resource mobilization mechanisms were developed and implemented. The Regional Flyway Initiative, in collaboration with the Asian Development Bank, BirdLife International and the Secretariat, was launched in 2021 during the CBD COP15, to mobilize large-scale financing for supporting the protection, maintenance, and restoration of wetlands in East and Southeast Asia that are internationally important for migratory waterbirds. After the EAAFP Foundation was established in 2019 to enhance fundraising, several corporates became sponsors to support the work of EAAFP, and a EAAFP Corporate Champion Programme was initiated.

During the COVID pandemic, the Secretariat had a chance to work closely with local stakeholders due to international travel restrictions. Local support were provided and projects were established to facilitate site management after the inscription of Korean Getbol World Heritage Site, Sister Site Programme between Incheon Metropolitan City, Republic of Korea and Hong Kong Special Administrative Region, People’s Republic of China, and Flyway Network Site Hwaseong Wetlands.

Financing the Secretariat workplan 2019-2022 (as of 10 February 2023)

Objective	Description of activity	2019 Budget (USD)		2020 Budget (USD)		2021 Budget (USD)		2022 Budget (USD)	
		2019 Budget	2019 Expendi	2020 Budget	2020 Expendi	2021 Budget	2021 Expendi	2022 Budget	2022 Expendi
Objective 1: Develop FNS	Activity 1.1 Provide advice and technical support to complete the SIS for new Flyway Network Sites and the update of the SIS of existing FNSs, e.g. through supporting workshops and consultancies	20,000	12,038	20,000	20,940	20,000	14,699	20,000	10,351
	Activity 1.2 Provide small funds to FNS (especially newly designated FNS) on a trial basis, to promote their designation by organizing celebrations, production of sign-boards and leaflets etc	10,000	4,266	10,000	239	10,000	938	10,000	186
	Activity 1.3 Developing Guidelines for National Partnerships (MoP10.DD08)	-	-	-	-	8,000	-	-	7,585
	Activity 1.4 Developing Guidelines and recommendation for the Sister Site Program and Site Partnerships (MoP10.DD09)	-	-	-	-	12,000	7,602	-	3,802
	Activity 1.5 Implamentation of local projects to support the FNS and Sister Sites by direct funding from local government.	-	-	214,592	214,592	198,758	186,032	139,616	18,512
	subtotal		30,000	16,304	244,592	235,771	248,758	209,271	169,616
Objective 2: CEPA	Activity 2.1 Maintain and update EAAFP website, including different language	20,000	12,622	20,000	22,690	50,000	35,259	50,000	24,593

	pages, and social media, including website maintenance and software, newsletter distribution, international interns support for translation								
	Activity 2.2 Update and produce CEPA materials, including updating, producing and distributing videos, brochures, posters and other awareness raising materials such as souvenirs and VIP gifts.	20,000	12,622	20,000	18,326	50,000	17,355	40,000	24,934
	Activity 2.3 Promote World Migratory Bird Day through events and global campaigns in Flyway countries, including videos, posters, flyers and other materials, and providing WMBD Small Grants to FNS site managers and CEPA collaborators	50,000	18,711	35,000	30,695	40,000	22,843	40,000	21,026
	Activity 2.4 Cooperate with other partners to hold Flyway-wide Youth Forum bringing together young people from Flyway countries around specific themes, and developing flyway conservation leadership skills and knowledge: the activity will try to leverage funds from Partner and other organizations	95,837	81,895	10,000	14,602	20,000	22,827	30,000	19,861
	subtotal	185,837	125,850	85,000	83,661	160,000	98,284	160,000	90,414
Objective 3: Research, monitori	Activity 3.1 Collect and translate (with the support of the Country Partners), the key documents from MOP10 (e.g. Strategic Plan 2019-2028) for uploading	30,000	7,733	-	-	50,000	54,031	55,893	39,220

ng, knowled ge generatio n	on the EAAFP website and further dissemination								
	Activity 3.2 Small grant support for EAAFP Working Groups and Task Forces, e.g. for meetings, surveys, materials, etc.	35,014	33,721	30,000	30,534	-	-	-	-
	Activity 3.3 Development of a Conservation Status Review of Migratory Waterbird Populations for the EAAFP (MoP10.DD12)	-	-	-	-	107,000	49,651	-	25,415
	subtotal	65,014	41,454	30,000	30,534	157,000	103,682	55,893	64,635
Objective 4: Capacity Building	Activity 4.1 Cooperate with Partners to organize international FNS Workshop, to bring together and share best practice for site management in the Flyway	40,000	-	40,000	-	40,000	-	27,000	-
	Activity 4.2 Cooperate with Partners to organize national FNS Workshop, held jointly with interested Government Partner. One of the focus will be on updating the Site Information Sheet (SIS) for existing FNSs;	40,000	467	40,000	2,833	40,000	-	20,000	897
	Activity 4.3 Support the conservation and raise awareness of the significance of the Incheon and adjacent coastal wetlands, through local partnerships in organising workshops, training, communication initiatives etc	15,000	8,841	15,000	324	-	-		
	Activity 4.3.1 SONGDO WORKSHOP REPORT by WWT 2018 KOEN FUNDS	28,787	11,397	77,253	38,412	-	-		
	Activity 4.4 Organize MOP11 in late 2020	-	-	40,000	483	10,000	476	50,000	444

	subtotal	123,787	20,705	212,253	42,052	90,000	476	97,000	1,341
Objective 5: Flyway-wide approaches	Activity 5.1 Support Yellow Sea network	35,000	1,256	35,000	-	25,000	126	25,000	12,948
	Activity 5.2 Support SE Asia Network	25,000	-	25,000	-	25,000	5,031	25,000	303
	Activity 5.3 Support activities in NE Asia/Russian Far East/Alaska	25,000	7,844	25,000	-	25,000	-	25,000	-
	Activity 5.4: Staff travel and costs to participate in national and international meetings, such as Ramsar, CBD and CMS COPs as well as meeting of Partners, to promote the Partnership through presentations, partner meetings, side-event, setting up exhibition counters etc.	30,000	29,601	30,000	13,108	30,000	9,517	30,000	23,762
	Activity 5.5 Committee meeting before MOP11 to review implementation of the Strategic Plan, papers for MOP11 etc	-	16,316	30,000	-	10,000	-	20,000	-
	Activity 5.6 Investment in fundraising, e.g. holding events, materials etc for supporter program	15,000	12,328	15,000	9,598	17,000	15,402	45,970	8,394
	Activity 5.6.1 Contribution from SONY for Hong Kong Bird Race, Marathon 2019	19,854	30,585	56,563	7,394	-	-	-	-
	Activity 5.7 Operation of the EAAFP Foundation and implementation of its annual work plan projects	-	-	-	-	50,000	15,422	77,253	67,000
	subtotal	149,854	90,086	216,563	30,100	182,000	45,498	248,223	112,407
Grand total (USD)	554,492	295,173	788,408	424,770	837,758	457,211	730,732	309,233	

Annex 4

Table of MoUs signed with EAAFP Secretariat

	Signing	Expiry	MOU Name	Entity	Signatory	Purpose	Funding
1	2019_05	2024_05	Memorandum of Understanding among the Partnership for the East Asian-Australasian Flyway, the Ministry of Environment and Metropolitan city of Incheon of the Republic of Korea as Host of the Secretariat of the East Asian-A flyway Partnership	Ministry of Environment, Metropolitan city of Incheon, ROK	EAAFP Secretariat	Enhancement of the framework for providing communication, education, and management of and conserving migratory waterbirds and their habitats across East Asian-Australasian	Financial supports in a continuous way
2	2020_01		Memorandum of Understanding between Environment Bureau of the Government of the Incheon Metropolitan City of Republic of Korea and East Asian-Australasian Flyway Partnership (EAAFP) Secretariat	The Environment Bureau of the Government of the Incheon Metropolitan City, ROK	EAAFP Secretariat	Collaborate on a range of activities	Support project expenses within the scope of the budget
3	2020_05	2020_12	Memorandum of Understanding on an International Symposium and Cooperation Project	Hwaseong City, ROK	EAAFP Secretariat	Holding an International Symposium and Protecting the Hwaseong Wetlands	Appx. 162,000 USD

						and migratory waterbirds habitats	
4	2020_06	2025_06	Memorandum of Understanding between the East Asian-Australasian Flyway Partnership Secretariat and Gyeongsangnam-do Ramsar Environmental Foundation	Gyeongsangnam-do Ramsar Environmental Foundation, ROK	EAAFP Secretariat	Conservation of migratory waterbirds and their habitats	x
5	2020_09	2022_09	Memorandum of Understanding on Collaboration in the Field of Wetlands and Associated Migratory Bird Conservation in Cambodia, Lao PDR, Myanmar, Thailand and Viet Nam Between the East Asian-Australasian Flyway Partnership (EAAFP) Secretariat and Secretariat for the Indo-Furma Ramsar Regional Initiative (IBRRI)	IBRRI, represented by IUCN, International Union for Conservation of Nature and Natural Resources	EAAFP Secretariat	Support the conservation and management of wetlands and associated migratory waterbirds in Cambodia, Lao PDR, Myanmar, Thailand and Viet Nam	x

6	2021_03	2024_03	Memorandum of Understanding on the Conservation of Migratory Waterbirds and Their Habitats in Incheon, Republic of Korea	Korea South-East Power Co., Ltd. Yeongheung Power Division, Incheon Metropolitan City, ROK	EAAFP Secretariat	Implement and support various activities of international environmental organizations and local environmental NGOs in regards to conserving natural monuments registered in the ROK and/or internationally endangered migratory waterbirds and their habitats in Incheon region.	x
7	2021_03	2024_03	Memorandum of Understanding Between EAAFP Foundation and Yeonsu Foundation for Arts and Culture	Yeonsu Foundation for Arts and Culture	EAAFP Secretariat	Promote the importance of migratory waterbirds and their habitats in East Asian-Australasian Flyway through culture and arts	x
8	2021_03	2026_03	Memorandum of Understanding Between the East Asian-Australasian Flyway Partnership Secretariat and the Ramsar Regional Center - East Asia	Ramar Regional Center - East Asia	EAAFP Secretariat	Cooperate in the field of wetlands and associated migratory bird conservation across East, Southeast and South Asian in EAAF	*Note: this MOU will automatically renew for three years unless no other termination or renewal of the agreement is made between the Parties

9	2021_05	2024_05	Memorandum of Understanding for collaboration Between The Secretariat of East Asian-Australasian Flyway Partnership And The Korea Environment Corporation	Korea Environment Corporation, ROK	EAAFP Secretariat	Strengthen cooperation in promoting environmental conservation and training future conservation leaders	x
10	2021_05	2021_12	Memorandum of Understanding on Collaboration for the Conservation of Hwaseong Wetlands (2021)	Hwaseong Eco Foundation, ROK	EAAFP Secretariat	Accomplish all the tasks related to Collaboration for the Conservation of Hwaseong Wetlands (2021)	Appx. 97,900 USD
11	2021_05		Memorandum of Understanding on the Establishment of the Migratory Bird Protection Platform in Ulsan	Ulsan Metropolitan City, Hyundai Motor Company, S-OIL Corporation, Korea Zinc Co., Ltd., Korea Petrochemical Ind. Co., Ltd., KyungDon City Gas., Ltd., ROK	EAAFP Secretariat	Protect the migratory waterbirds, the indicators or ecological health, and carry out international responsibilities	x
12	2022_01	2022_12	Memorandum of Understanding on Collaboration for the Conservation of Hwaseong Wetlands (2022)	Hwaseong Eco Foundation, ROK	EAAFP Secretariat	Accomplish all the tasks related to Collaboration for the Conservation of Hwaseong Wetlands (2022)	Appx. 92,000 USD

13	2022_03	2025_03	Memorandum of Understanding Between the East Asian-Australasian Flyway Partnership Secretariat and the Korea Marine Environment Management Corporation	The Korea Marine Environment Management Corporation, ROK	EAAFP Secretariat	Conservation for habitats and associated migratory waterbird conservation in relation to Outstanding Universal Value (OUV) of the UNESCO World Natural Heritage	*Note: this MOU is automatically be renewed for three years unless or other termination or renewal of the agreement is made
14	2022_07	2023_07	Memorandum of Understanding Between the East Asia-Australasian Flyway Partnership Secretariat and the Seoul Science Center	Seoul Science Center, ROK	EAAFP Secretariat	Promoting the understanding of, and aiding the popularization of science and technology among youth	Note: this MOU will automatically renew for one year unless no other termination or renewal of the agreement is made between the both Parties
